Breeder Referrals

Don't forget about the Breeder Referral section of our Website. If you want to be listed, contact Pat White for a Breeder Referral release form to sign so you can be added. Also if any information has changed, let Pat know so that she can make the updates to the Breeder Referral page.

Website Contact info

Our Website has a contact page so that our club members may be contacted by email. If you would like to be on the contact page, let Pat White know your email address. Also if your email address has changed or could have changed since the contacts were originally posted, let Pat know and she will make the appropriate updates to the website.

Club News:

The March meeting was held on the 11th. There were 20 members present and we had no visitors.

We had a great turnout at our Monday training signup on March 8th at the Armory. They will continue until April 26th which is the last training class. Canine Good Citizen testing will be May 3rd..

Don Butts thanked us for the flowers sent by the club.

We continued our discussion on whether the club should take a position on professional handlers wearing the Professional Handler pin in the show ring. The feeling of most of the membership is that it

gives the advantage to the professional handler over the regular handler in the ring. It was decided that the club would not pursue handlers wearing the Professional Handler pin with AKC at this time. We would consider joining with another club to take up the topic and have discussions with AKC.

This meeting was also a training meeting. We watched the second half of the DVD on Breeding Dogs Cindy provided.

Article of the Month:

Top 10 Pet Poisons of 2009:

- Human medications
- Insecticides
- People food including xylitol, grapes, raisins, avocados and chocolate
- Plants including azalea, rhododendron and lilies
- Misused pet medications
- Rodent poisons
- Household cleaners
- Metals including lead, zinc and mercury (often found in paint chips and linoleum)
- Garden products such as fertilizers
- Other chemicals such as antifreeze, paint thinner, drain cleaners and pool/spa chemicals.

What to do if your pet has been exposed to a poison:

- If possible, collect a sample of what the animal ingested
- Also collect in a sealed plastic bag a sample of anything the animal has vomited or chewed.
- An animal may not show symptoms of poisoning right away, but you should contact either your local veterinarian or the ASPCA Animal Poison Control Center at 1-888-426-4435 (a \$65 consultation fee may apply) for more information
- If the animal is having seizures, losing consciousness or is having difficulty breathing, get it to emergency treatment immediately.
